Introduction | About the searches
Nalazite se na Internet stranicama baze podataka "Sudska praksa" Vrhovnog suda Republike Hrvatske – "SuPra".
Baza podataka omogućuje uvid u sudsku praksu objavljenu u tiskanim izdanjima Vrhovnog suda Republike Hrvatske pod nazivom "Izbor odluka", ali i dostupnost dosad neobjavljenih cjelovitih tekstova odluka Vrhovnog suda Republike Hrvatske u razdoblju od 1993. godine do danas.
Osim odluka navedenog suda ovdje možete pronaći i izbor odluka ostalih sudova u Republici Hrvatskoj (za sada samo županijskih sudova i Visokog trgovačkog suda Republike Hrvatske).
Sve odluke donesene nakon 1. siječnja 2004. godine imat će osim teksta odluke pridružene i indeksne podatke. Indeksni podaci obuhvaćaju pojmove iz stvarnog kazala, propise iz zakonskog kazala, te "Nomenklaturu prava 2003" preuzetu od "Inženjerskog biroa", uz dopune Vrhovnog suda Republike Hrvatske.
Uz posebno važne i zanimljive odluke objavljuju se pravna stajališta (tzv. sentence).
Svaka odluka u bazi ima cjeloviti tekst koji će odsad biti dostupan široj javnosti, a koji se razlikuje od originalnog teksta samo u dijelu kojim se štiti privatnost stranaka u postupku. Zbog zaštite stranaka u postupku izostali su identifikacijski podaci o fizičkim i pravnim osobama, prema Pravilima o anonimizaciji sudskih odluka i Uputama o načinu anonimizacije sudskih odluka Predsjednika Vrhovnog suda Republike Hrvatske.
Ukoliko ne možete otvoriti datoteku sa tekstom (PDF) potreban vam je program Acrobat Reader.

Introduction | About the searches
Pregled i pretraživanje baze odluka moguće je korištenjem sljedećih opcija:
1. "Pregledi odluka" i
2. "Pretraživanje".
"Pregledi odluka" su već unaprijed pripremljena područja preko kojih se može doći do željenih odluka, a opcijom "Pretraživanje" unosimo kriterije koji su nam potrebni kako bismo došli do traženih odluka.
Unos kriterija "Pretraživanja" moguć je kroz tri različite vrste pretraživanja:
1. Osnovno pretraživanje
2. Standardno pretraživanje i
3. Napredno pretraživanje
a vi ćete sami odabrati vrstu pretraživanja koja vam najviše odgovara.
Odluke od 1993. do 1. siječnja 2004. godine možete pretraživati u bazi po metapodacima (nazivu suda, sudskom odjelu, oznaci i broju odluke) i po pojmovima odnosno riječima iz samog teksta odluke, dok odluke donesene nakon 1. siječnja 2004. uz sve navedeno i po indeksnim podacima.
Ukoliko ne možete otvoriti datoteku sa tekstom (PDF) potreban vam je program Acrobat Reader.
Priručnik za korisnike aplikacije "Sudska Praksa"
Želimo vam uspješno pretraživanje sudskih odluka!

2.3 Search

This section explains the different ways of how a user can locate Decisions using the available search functionalities of the application:

- Quick Search
- Basic Search
- Advanced Search

Additionally, General Search assistance is provided at the begging of the chapter and the Search results are presented in detail.

2.3.1 General Search assistance

When searching for an exact number or phrase, this number or phrase should be included in double quotes (“) otherwise any space between numbers or words will connect the entered words with the “AND” operator.

Example:

- Entered value: 159 2008 will give as result all Decisions which contain in their Document Number or content both the number 159 AND the number 2008.
- Entered value: “159 2008” will give as result all Decisions which contain in their Document number or content the exact number “159 2008”.

This means that searching for a Decision Number which contains also special characters like slashes (/), should be included in double quotes.

Therefore, in order to search for the number 159/2008, quotes should be used and the entered value should be: “159/2008”.

It is also recommended to use the asterisk (*) character in order to get the correct results in case you are not sure about the exact Decision Number or the exact phrase. The asterisk character can replace one or more letters or special characters. For example, searching by the keyword “function*” will give as result all Decisions containing words “function”, “functional”, “functionality”.

The same rules apply also for the "Contains" fields in both Basic and Advanced Search forms.

2.3.2 Quick Search

Quick Search lets you search within the Decision number.

In order to perform a Quick Search:

1. In the Quick Search field at the top of the page, type the text that you want to search and press the button . The list of decisions that fulfil the selected criterion should be presented.

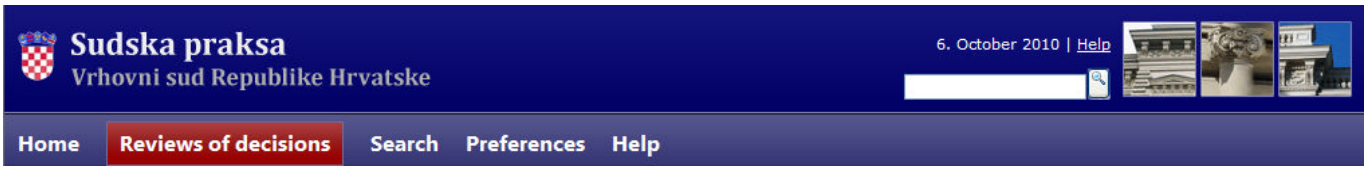

Figure 9: Search – Quick Search

2.3.3 Basic Search

Basic Search lets you search within some Decision Attributes or Content at the same time.

In order to perform a Basic Search:

1. Click on the “Search” tab on the top navigation.
